Public Policy

Charitable nonprofits improve our lives, add vitality to our communities, contribute to our local and national economies, and enhance the health of our democracy. The National Council of Nonprofits is the largest network of nonprofits in North America. We champion, inform, and connect organizations across the country to score big wins for nonprofits and the communities they serve.

We're the only national, sector-wide group that integrates policy advocacy vertically (all levels of government) and horizontally (all branches of government). This holistic approach results in policies that support, strengthen, and protect nonprofits, especially small and midsize groups.

With the help of our state associations of nonprofits, we actively monitor what is happening in state capitals across the country to identify developments state by state, connecting the dots so that charitable nonprofits can see trends across governments, share information, craft solutions, and mobilize for action. In all our work, we strive to inform policymakers, journalists, the public, and indeed other nonprofits, about the vital role that charitable nonprofits play in benefiting the communities they serve.
