Our Impact

We champion, connect, and inform nonprofits nationwide to improve lives in local communities.

Watch this short video (less than one minute) to look back at NCN's accomplishments in 2024!

Guided by passionate leadership and [strong values](#), our team leverages extensive experience and knowledge. Partnering with our nationwide network of state associations and [mission supporters](#), NCN achieves transformative impacts that support and equip charitable nonprofits to provide essential services in their communities that improve lives.

- **Our network deepens nonprofit relationships across state lines**, promoting knowledge sharing, advancing equity, and amplifying the collective voices of the nonprofit community, creating a more connected and empowered sector.
- **Policymakers, the media, and the public gain a deeper understanding of the nonprofit sector** through NCN's timely, practical, and credible information, leading to more informed decision-making and support for nonprofits.

- **NCN safeguards the entire nonprofit community** across all levels and branches of government, uniquely positioning us to protect and advocate for the sector, ensuring its stability and growth.
- **Our unmatched advocacy and extensive network build a supportive public policy environment**, enhancing nonprofits' capabilities to serve their communities effectively and sustainably.

NCN is equipped to act with swift, surefooted, and coordinated responses when policy threats and opportunities emerge. Examples of our most significant public policy achievements include:

- In 2013, our relentless advocacy efforts led to a **groundbreaking mandate requiring governments to cover the indirect costs** for nonprofits delivering community services with federal funding. Building on this success, our continued advocacy in 2024 resulted in significant improvements to this mandate, including an **increased minimum indirect cost rate** and a **more equitable, streamlined federal grant process**.
- We secured **\$50 billion** from Congress in forgivable Paycheck Protection Program loans for nonprofits' COVID-19 relief and guided more than 100,000 organizations in learning how to access those loans, helping to **preserve 6.2 million nonprofit jobs** (data from the Small Business Association).
- We succeeded in **making nonprofits eligible for funding from the \$350 billion** in American Rescue Plan Act dollars allocated for pandemic relief and recovery.
- We **preserved nearly a billion dollars in charitable donations** by defeating attempts to limit giving incentives in multiple states.

“In moments of crisis and demand, you can’t just funnel money to an organization and expect it to be effective. What NCN achieved for nonprofits during the pandemic requires consistent support to build capacity, skill, and relationships that can be mobilized for both the ongoing work and those moments of crisis or opportunity. ”
