Coronavirus State and Local Fiscal Recovery Funds
State Funding Opportunities and Resources

Through December 31, 2022

About the Coronavirus State and Local Fiscal Recovery Funds
Congress allocated $350 billion in COVID-19 relief funds for state, local, Tribal, and territorial governments to use in providing “assistance to households, small businesses, and nonprofits, or to aid impacted industries” (emphasis added). The federal government showed tremendous trust that governments closest to the people and their problems are best positioned to decide the best ways to spend their allocated resources to meet local needs.

When Congress authorized the $350 billion in Coronavirus State and Local Fiscal Recovery Funds, it allocated them separately to states, to counties, to metropolitan cities, and “non-entitlement areas” (local governments typically serving populations of less than 50,000, including cities, towns, townships, and villages). The following are applications open to nonprofits released by state and local governments through December 31, 2022, as well as funding resources from state associations of nonprofits.

Opportunities by State
